

MagiCAD for AutoCAD

MagiCAD 2016.4 for AutoCAD developed by Progman Oy

- Circuit Designer, Electrical, Piping, Room, Sprinkler Designer, Ventilation, System Designer
- Standalone license and network license
- 32- and 64-bit

MagiCAD 2016.4 for AutoCAD operates on Windows 10, Windows 8 and Windows 7 operating systems.

MagiCAD for AutoCAD runs on AutoCAD software developed by Autodesk, Inc.

MagiCAD 2016.4 for AutoCAD requires 32-bit or 64-bit AutoCAD version 2013-2017, or the corresponding software (for example, Architecture or MEP).

The system requirements for MagiCAD for AutoCAD are the same as for the AutoCAD version that MagiCAD for AutoCAD is compatible with. At least 1 GB of free disk space is required.

MagiCAD 2016.4 for AutoCAD is backward compatible down to MagiCAD version 2014.11 for AutoCAD. *MagiCAD 2016.4 for AutoCAD successfully opens project files and drawings created also with MagiCAD versions 2014.4 or older, but once the project files and drawings are saved with the version MagiCAD 2016.4 for AutoCAD, the project files and drawings will not be compatible anymore with MagiCAD versions 2014.4 or older.*

Riuska

Riuska developed by Granlund Oy

- Sold together with MagiCAD Room as MagiCAD Comfort & Energy by Progman Oy or its authorized reseller
- Standalone license and network license
- 32-bit version

Riuska operates on Windows 10, Windows 8 and Windows 7 operating systems.

• Report output in Microsoft Excel format from Riuska requires Microsoft Excel.

MagiCAD for Revit

MagiCAD 2016.4 for Revit developed by Progman Oy.

- Electrical, Piping, Sprinkler Designer, Ventilation and Supports & Hangers
- Standalone license and network license
- 64-bit version for Revit MEP/BDS 2016
- 64-bit version for Revit MEP/BDS 2017

MagiCAD 2016.4 for Revit operates on Windows 10 (requires Autodesk Revit 2017), Windows 8 and Windows 7 operating systems.

MagiCAD for Revit runs on Revit software developed by Autodesk, Inc.

MagiCAD 2016.4 for Revit MEP 2016 requires 64-bit version of Revit MEP 2016, Building Design Suite Ultimate 2016, or Building Design Suite Premium 2016.

MagiCAD 2016.4 for Revit MEP 2017 requires 64-bit version of Revit MEP 2017, Building Design Suite Ultimate 2017, or Building Design Suite Premium 2017.

<u>MagiCAD for Revit requires an Internet connection.</u> Accessing the product database with MagiCAD for Revit requires an Internet connection because the product database is available online. While we aim to keep the product database available at all times, there may be occasional limitations to its availability such as maintenance-related service breaks.

The system requirements for MagiCAD for Revit are the same as for the Revit MEP version that MagiCAD for Revit is compatible with. At least 1 GB of free disk space is required.

Resolved known issue: When using Revit MEP 2016, the update packages SP1 and SP2 (including the latest SP2 updates, e.g. SP2 Update 3) cause a conflict with sizing functions of MagiCAD Ventilation 2016.4 for Revit We have found that Revit MEP 2016 updates SP1 and SP2 include internal changes which affect the functionality of two MagiCAD components. When Revit MEP 2016 update packages SP1 or SP2 are installed:

- SP1 (Released June 30th, 2015):
- Ventilation sizing functions of MagiCAD 2016.4 for Revit may not work.
- SP2 (Released August 17th, 2015) and SP2 updates (e.g. SP2 Update 3, released February 17th, 2016):
 Ventilation sizing functions of MagiCAD 2016.4 for Revit may not work.

SOLUTION:

- Install Update 5 for Autodesk Revit 2016 Release 2 (released June 2016)
 - Note: This update requires Autodesk Revit2016 Release 2 for subscription customers (build: 16.0.1063.0) or later version of Autodesk Revit2016 R2.
- If installing Update 5 for Autodesk Revit 2016 Release 2 is not an option for you, the alternative method of avoiding these issues is to continue using Revit MEP 2016 without installing the updates or by reinstalling Revit MEP 2016 and MagiCAD for Revit without the updates.

Licensing

•

MagiCAD for AutoCAD and Revit has the following license alternatives:

- Stand-alone licenses, which are activated on the workstation
 - Network licenses, which are activated on a network server
 - single server model, in which all licenses are activated on one server
 - o distributed license model, in which licenses are distributed to multiple servers

Accessing the licensing-server requires an internet connection. There may be occasional limitations to its availability such as maintenance-related service breaks.

Compatibility

Standalone licenses of MagiCAD 2016.4 are compatible down to MagiCAD version 2009.11.

Network licenses of MagiCAD 2016.4 are compatible as follows:

- MagiCAD versions 2006.11 to version 2016.4
- However, please note that if you are using MagiCAD versions older than 2009.11, it is not possible to borrow licences. Please contact our technical support for details.

System Requirements in Network Use

- Network license (32-bit server) requires 32-bit Windows Server 2003-2012 operating system on the server.
- Network license (64-bit server) requires 64-bit Windows Server 2003 (including SP1 and SP2), 2008 or 2012 operating system on the server.
- TCP/IP protocol is required in network licensing.
- If the operating system on the file distribution server in Windows network is Novell, Linux or equivalent, the developer of the application cannot be held responsible for the functionality of the application.
